Unidentified Cameron Correspondent Requests Investigation

FBI Investigates Cameron Police

Whether the civil rights of prisoners in Cameron's City Jail are being denied was the subject of investigation by the Federal Bureau of Investigation last week.

Tom McWilliams Jr. of the Waco Bureau was dispatched to Cameron from the office of Warren Olney III, assistant in the Department of Justice in Washington following a letter from "someone" in Cameron complaining of the treatment of the city prisoners.

The entire proceeding is secret insofar as the investigator is concerned said McWilliams but the findings will be presented to the September session of Federal Grand Jury in Waco.

The investigator would not reveal the source of complainants letter but it is assumed that such a complaint would come from someone of influential standing, either personal or a public official.

Bob and Tom Ainsworth, brothers, are habitues of city jail on charges of drunkeness in public places and using public gutters for resting places. The men are declared to be essentially good men but addicted to intoxicants. The policy of the new Cameron Police department has been to deny any special treatment to prisoners and in the instance of the Ainsworths this policy was allowed to stand.

McWilliams briefed himself thoroughly on the character and professional references of Police Chief Willie Dolan. He talked with Mayor Robert Weems early in his investigation but never got around to talking with the chairman of the police committee (in some towns referred to as Police Commissioner) Charles Brady. Under the new charter of the City of Cameron a STRONG City Council is demanded. It was, and still is, the considered opinion of the members of the Charter Commission that now and in the long run the city will benefit from close adherrance to this policy. In other words the "Police Commissioner" who is a council member is invested with the authority of his department and hence is required by the charter to be considered as the actual head of the department in DIRECT contrast to the old form of government in the city which placed authority over all departments in the hands of the mayor.

McWilliams confronted Police Chief Dolan with rumors which he had picked up in a very short time in Cameron that 1. Dolan had given a ticket for speeding to Sheriff Carl Black while the Sheriff, as Fire Chief, was enroute to a fire.

2. That he had been confronted by a local man and asked " Do you know who I am?" and received the answer that "No I don't know and I don't give a ——". The ridiculousness of both rumors only go to show the character of the underground fight being waged in Cameron against the Police Chief.

Charles Brady, police department head, stated that he had complete confidence in the ability and in the character of Chief Dolan. That law enforcement in Cameron has definitely been on the upgrade ever since he started his tenure is evidenced by the records of arrests and convictions not only in the city but in county court on cases turned to the county by city officers. Enough has been collected in fines in the city that the police fund is more than adequate at this time to defray the city participation with the Civil Defense Administration in the purchase of two-way radio for the police car Brady said. Preliminary applications to Civil Defense and Federal Communications Commission were ordered begun in a special meeting of the police committee recently.

Police Activity Varied And Full Of Mystery Too

Police activity in Cameron during the past week was rather varied as well as spectacular with one mysterious accident, a three way knife wielding, cutting incident and a 90 mph autmobile chase.

On Sunday at 2:15 a.m. Night Chief Brandenburg came upon a 1956 Pontiac which had rammed a light pole at Emancipation and North Sixth within a few minutes after it happened. In the car lay an unconscious nude negro man with head injuries and facial lacerations. After revival the man who is a Cameron truck driver, declared that he did not know how he got there.

There were no eye-witnesses but a nearby resident said that he saw a woman running from the scene following the collison. Police believe that they are in possession of the woman's identity but are holding up all charges until the return of a blood test on the man which they sent to Austin. Robbery is suspected on the case.

Three soldiers were involved in a cutting scrape at a local tavern. The wife of one man drove up to the tavern and her husband allegedly abused her in an endeavor to make her go home. A second soldier was reported to have intervened and in the ensuing fracas a knife was drawn by one of the men and while endeavoring to take the knife the other man was severely cut on the hand. He ran from the scene leaving his car behind. Later he talked a third soldier in picking up his cand, and man found the first man waiting in the car with a jagged, broken bottle waiting for the owner to return. The third man was severely cut on the back as he endeavored to get away.

Charges of Aggravated assault were filed in county court by police against James Lee and he was assessed a fine of $50 and costs. Police were hampered in this case because Chief Brandenburg was on patrol and could not be contacted due to the lack of radio equipment until most of the incident which consumed the better part of an hour had been concluded.

In another incident a chase grew out of Brandenburg seeking to question a man in a car parked in the 77 Drive In Theater at a late hour. The antiquated police car was unable to catch the fleeing suspect but kept close enough that he ran up on the abandoned vehicle at a dead end street. The 1950 Pontiac has been impounded and as yet is unclaimed. Speeds during the chase were up to ninety miles per hour Brandenburg said.

During the next week the regular traffic officer Marshall Terry will be on vacation and William Brandenburg has been assigned to the parking meter and traffic job. Brandenburg asked that a warning be issued that illegal parking will be his prime ticket target.

Reservations For 4th Nat. Jamboree Must Be Made Early

Basic requirements and reservation proceedures for the 1957 National Boy Scout Jamboree contingent from the Heart O'Texas Council have been established by the Council's Jamboree Committee, Chairman James A. Cunningham, Temple, announced this week.

"Our Council has been granted space at the 4th National Jamboree for only three full Troops; a total of 111 boys and 9 adult leaders," Mr. Cunningham stated, "and this has forced our Jamboree Committee to set up basic requirements for attendance and reservation proceedures."

In order for a Scou or Explorer to be eligible to attend the Jamboree at Valley Forge, Pennsylvania, next July he must first be 12 years of age or older as of January 1, 1957; be a Second Class Scout, Apprentice Explorer, or higher rank; have adequate

Clement Family Plan To Make Home In Irving

The latest departure from the Cameron School System is Guy Clement, vocational teacher who with his wife, Mrs. Jackie Clement have put their home up for sale and will move to Irving, Texas.

Mrs. N. E. (Edith) Barron has resigned her employment at the Newton Clinic to accept the job as Secretary to Superintendent Loughmiller as soon as her notice expires at the Clinic.

Loughmiller feels that the departures from the school system this year are about at an end and with the replacement of Principal Young with a teacher-coach and the opening left by Clement that his staff will be complete for the coming year.

BO PEEPS

By James E. "Bo" Patterson

Some Mutt put in the paper last week that I was too pooped to peep. Well now I'm gona reveal that I would have been plum crazy to just "Peep" last week. I went to see my wife at a Camp Fire Girl's Camp up in north Texas. There were twenty-five college girl councelors and they didn't exactly dress for the ball (if you know what I mean). Wouldn't I have been nuts to just peep when I could TAKE A GOOD LOOK.

One of the councelors was Ronda Hayes, of Baylor College and Raton, Texas. She is a beautiful dark skinned brunette. She has a well-rounded understanding and says that she has a "Favorite" uncle in Cameron. But he doesn't have an e in his name so suppose he was a west Texas cattle rustler and dropped the e and came to Cameron and the Postoffice department to hide out.

Leo Jackson Reports Summer Recreation Activity Heightening As End Nears

The Redbirds were razor sharp Monday night as they went on a scoring spree to completely subdue the Cubs by a lop-sided score of 26-7.

The scores sounded more like a football score than that of a softball game, but everybody had fun as timely bits and sparkling defensive plays dominated throughout the game.

"Chili" Williams was the winning pitcher and Ray Green was his catcher. For the losers it was J. Marshall catching and Make McDermott the pitcher.

The Birds scored four runs in the first inning, two in the second, flew around eleven times in the third, three times in the fourth and then closed the meeting in the fifth with six tallies for the night-cap.

The losers scored one run each in the first two innings and two in the third innings and then one in the fifth and completed their scoring in the sixth when they chased across two runs. Luther Burnett and Arthur Marek were the offensive stars for the Redbirds as they both scored three runs each for their team. For the losers it was John Marshall who scored twice for a losing cause.

The second place Yankees kept after the pace setting White Sox as they defeated the Braves 8-2.

The losing Braves scored their only two runs in the first inning while the Yankees scored three in the first inning then in a third inning rally chased in five big runs.

The winning pitcher was Carrol Fikes with Vogelsang catching. The losing pitcher was J. Parker caught by H. Thweatt.

The White Sox cinched at least a tie for the championship Friday night in Little League play as they defeated the Indians by a close score of five to three.

Lack of timely hitting by the Indians were their downfall, they left a total of nine base runners stranded during the game. The battery for the winners was J. Patterson pitching and Steve Malone catching. For the losers it was L. Pate catching Pat Dillon.

Dodgers 19—Phillies 2

In the first game of the double header in the National League the powerful Dodgers run over the hapless Phillies by a score of 19 to 2.

The winning battery for the Dodgers was D. Bryan catching M. Lester who went the route for the winners.

For the losing Phillies it was M. Johnson catching G. McCarty. It was a close ball game until the bottom of the fifth inning when the Dodgers went on a rampage to chase in ten big runs and turned the ball game into a near riot.

The hustling Cardinals coached by Niley Smith Jr. rose to great heights Monday night to plaster the Pirates by a score of 17 to 9. It was the biggest upset of the fading season as the powerful Pirates had swept aside all their opponents without tasting defeat.

When the first pitch came across the plate the Cardinals never stopped swinging until the game was over. They scored seven big runs in the first inning and the stunned Pirates could never recover.

During the afternoon and night a dance will be held and several prizes will be given away.

Milam Returns Canvassed By Demo Committee

The Milam County Democratic Committee met Tuesday, July 31, in the District Courtroom, to canvass election returns for the July primary.

After checking the returns, tabulated by the secretary, Mrs. Minnie Nell Lewis, the returns were approved as tabulated.

Considerable discussion took place relative to the dual system of voting. Some of the committeemen pointed out that the dual system of voting was still confusing to a lot of people. Two years ago a resolution was adopted by the committee and sent to the State Senator and Representative to introduce a bill into both Houses to go back to one system of voting. The Bill passed both Houses by a good majority but was vetoed by Gov. Shivers. The committee again instructed the Chairman.

Milam Farmers Tour Blackland Experiment Station

Some twenty-five Milam County farmers and businessmen attended a field tour of the Blackland Experiment Station on July 24th to observe research in progress. Hybrid sorghums will be available for the first time in 1957 according to Ben Spears, Extension Agronomist.

The farmers, who attended the affair with County Agents from Bell, Milam, Travis, McLennan, Falls and Hill Counties, were told that Texas No. 610 Hybrid maize would give the best yield for this area. This hybrid is resistant to lodging, has good head exertion extends well above the foliage of the plant which makes combining easier and is an early maturing hybrid Mr. Spears pointed out.

For dry areas and drier sections of this area, Texashybrid No. 590 shows more promise for early maturing and best results. Texas hybrid No. 620 is a high yielding variety but has a tender-

This expression of confidence by my home town was the high-light of my campaign, and my wife, Mary, and I appreciated it very much. Congratulations to Bob Nelson on winning the race. I trust that I may serve Milam County in political office at some future date, if the people wish for me to do so.

"Orderly Shutdown Halts Production At Milam's Alcoa"

Described by plant officials as an "Orderly shutdown" the Milam County plant of the Aluminum Co. of America , affecting 950 union members started Wednesday morning.

There were no picket lines established the official said but union "observers" sat in the guard office at the front gate he reported.

The remainder of the 1200 employes were on their jobs as usual.

All negotiations were carried on at first in Pittsburg and later moved to New York. It was in the later city that negotiations broke down at midnight Tuesday.

There was no word available in Milam County as to the extent of the differences in company and union positions Wednesday morning.

Milam Soil Banked Crops May Be Grazed; Destroyed By August Third

If not already destroyed the cotton land in Milam County can be grazed and or destroyed by Friday night, August 3 according to a telephoned report to John A. Smith, president of the Milam Co. Farm Bureau, from Bob Poage in his Waco office Tuesday.

Milam County along with McLennan, Bell, Coryell, Bosque, Hill and 58 counties west of this area were on the official drought disaster list Poage said.

The drought disaster program also provides $1 a bushel reduction in feed grains purchased to sustain foundation livestock. The Grains include oats, barley, rye. and corn. Payments will also be made for percentages of these grains in feeds.

Just when machinery will be set up to allow farmers to receive their reduction in price no one in Central Texas knows.

It is expected that county FHA committees will determine eligibility of applicanst, and then the ASC office will issue purchase orders farmers may use to buy livestock feed from their local feed dealers.

Cameron Hair Stylists Briefed On "Bouffantasie"

"Bouffantasie For Fall" was the major concern of the National Hairdressers and Cosmetologists Assocation in its national show at the Statler Hilton in Dallas July 15 to 18.

The meeting attended by Lillie Richter, Fay Kohutek and Lelia Rogers of Cameron concluded that "It's the width, not the length that is changing in hairstyling."

The cuts are short but with the new full flare style such colors as Flamingo Pink, Steel Blue and Texas Moonlight were shown along with a Tangerine shade the ladies reported.

There will be no doughnuts or buns in back but they will be replaced with Psyche Knots of French twists, the local hairdressers reported. "The Woman of tomorrow will form a flashing silhouette from head to toe." "She will co-ordinate color in hair with color in clothes. Her Empire gown will be reflected in her equally European influenced hair do." the stylists concluded.

Future Homemakers News

Bright and early Friday morning, July 20, 1956, twenty-three sleepy FHA girls and their two sponsors boarded a bus and started toward a big day of fun. They left Cameron at seven A. M. for Fort Parker near Mexia and Gros beck. The girls have been planning for this field trip and pleasure trip for some time. When they arrived at Fort Parker cameras began clicking in order to remind them of this historical spot which has an important place in history. The fort is one of the most historic sites in Texas. It is where Comanche and Kiowa Indians fought pioneers in 1836 and kidnapped Cynthia Ann Parker. It has been restored by the state of Texas so that tourists may have an idea of how things looked at that time.

The bus was then driven over to the park. At once the girls began looking for the ole swimming hole. After a short while the picnic lunches were quickly devoured. The afternoon was then open for the eager swimmers and inexperienced boat riders. The shade trees, green grass, and beautiful lake view was most inviting to those who wished to spend a quiet afternoon.

About four o'clock in the afternoon the tired, sunburned sleepy group packed up their belongings, boarded the bus and headed toward home after a wonderful day of fun. On the way home they made plans for the August meeting. This meeting will be devoted to introducing the incoming Fresh man girls to the homemaking department.

The sight-seeing group was made up of the following FHA girls: Jeanette Taylor, Adeline Veracruz, Dawn Allison, Pat Hertenberger, Lillian Kostroun, Bobbye June Edmonds. Sharon Wise, Barbara Coward, Mary Ellen Richter, Gloria Harber, Mary Jane Vogelsang, Beverly Rice, Elwanda Holland, Mary Jo Varner, Albina Kolodejcak, Norma Rummel, Mary Harwell, Anita Trdy, Marjorie Wilkinson, and Patsy Anderle. Guests of the FHA girls were Jane Veracruz, Kathryn Svetlik, and Geri Kolodejcak. Mrs W. T. Whatley Jr. and Mrs. Albert Edmonds were the sponsors who chaperoned the girls.

MILAM FARMERS —

cy to fall before harvesting.

Texas hybrids No. 650 and No. 660 are late maturing hybrids and the heads are located near the foliage of the plant. These hybrids are okay for planting in bottom land soil Mr. Spears added. Texas hybrid No. 601 is not recommended for this area.

Mr. J. W. Collier, Station Agronomist discussed the possibilities of new corn hybrids. Texas hybrid No. 30 is our leading corn hybrid at present.

Dr. Elton Cook, who is in charge of the cotton work at the station conducted the group on a tour of cotton varieties. The station raised 48 varieties of cotton this year with much emphasis on stripper type cotton.

Blightmaster is the cotton that has shown the most promise at the station Dr. Cook said. This variety is resistant to angular leaf spot, a bacterial disease common to cotton in Milam County.

Dr. Cook pointed out that due to drouthy conditions Ponta and Oil will be out best defoliants for this year. He also pointed out that 2,4-D is not necessary in defoliation mixtures and he would not recommend its use where cotton seed are to be kept for planting seed.

C. R. Porencia, antomologist, discussed results obtained by using systemic insecticides in controlling cotton insects. Mr. Porencia pointed out that farmers should use 1 application of a standard insecticide at the end of the 4 to 5 week protective period when using systemic insecticides.

One hundred of the stations feed lot cattle were observed by the group. Ray Lovorn discussed grazing practices used before the cattle were placed in feed lots.

The Crops and Conservation Committee of the Cameron Chamber of Commerce and the County Extension Service sponsored the tour.

MILAM RETURNS —

to send a similar resolution to our Legislators, requesting that they bring this before the Legislature again in the 1957 term.

Discussion relative to registration at the time of paying poll tax also took place. On motion of W. B. Elliott of Thorndale, the Chairman was instructed to confer with E. A. Camp of Rockdale to draw up a resolution to be sent to our Legislators requesting that registration be enacted to require Texans purchasing poll taxes to declare whether they are Republican or Democrats. This action is being taken by a number of committees over the state in that Legislation might be enacted to prevent democrats from voting in republican primaries and republican voting in democratic primaries. The members of the committee present expressed opinion that Democrats and Republicans vote in their own primary. The Committee also discussed at length the confusing way in which the referendum issues were stated. One committeeman pointed out the fact very strongly that he didn't see how a group of lawyers supposingly educated could work up such a confusing mess as was stated in the referendum.

Claude Galbreath, who has been committeeman from the Gay Hill precinct for over twenty-five years resigned his position and asked that Emory Doss be named to fill his position. The request was granted on motion by George Leath and seconded by W. B. Elliott. Mr. Elliott made motion which received a prompt second that a resolution be executed commending Mr. Galbreath on his faithful service to the committee.

Mr. Galbreath also requested that Ray Eads be appointed Election Manager for the Gay Hill precinct in the August run-off primary. This request was also granted by the committee.

JAMBOREE —

camping experience in the openion of the Jamboree Committee; agree to participate in a 3-day "shake-down" camp; have a physical examination, including small-pox vaccination within three years prior to July 1957.

To make a reservation to attend the Jamboree a Scout or Explorer must make application through his Scoutmaster or Explorer Advisor, who has been sent special forms for this purpose. Reservations are accepted by the Heart O'Texas Council, 1704 Austin Avenue, Waco, on the basis of one per Unit, plus any number of "alternates" who gamble that space will be available after the "one per Unit" reservations are all in. Requests for reservation of space in the Council's Jamboree Troops must be accompanied by ten dollar reservations fee for each "Unit reservation" or "alternate" Applications for space directly from Scout, Explorers, or their parents will be returned to be sent in by the Scoutmaster or Explorer Advisor concerned. "Early forwarding of reservation requests to the Council Service Center in Waco is of utmost importance because the available space will be filled in the order in which (1) "Unit" reservations are received, and (2) "alternates" are received, Mr. Cunningham stated, "and Unit reservations close on October 1, 1956. Following this date any available space will be filled by alternates who have made requests for space."

Hospital May Have A "Slightly Spoiled" Operative Case

July, sometimes considered "Dog Days" in many institutions was not so at the Newton Hospital in Cameron.

People just refused to stay well —they needed operations and just plain got sick or needed medical advice just the same during vacation time for doctors as at any other time.

With four and five operations some days for an average of three daily and with only one surgeon-medic on duty and coupled with thirty in patients to call on twice daily and about that many out patients to see it is easy to assume that the life of a one man hospital is no bed of roses, but the work was accomplished with dispatch.

Lightening the load of work for the nursing staff has been a "pet" patient. Mr. Matt A. Baggerley, 88, of 307-B No. Houston is recuperating from major surgery at Newton and the only adverse effects of his hospitalization might be that he will be "slightly spoiled."

Baptist Circle Studies "Give Ye" by F. K. Means

Seven members and two guests of the Baptist Training Circle of the First Baptist Cuhrch met in the home of Mrs. J. W. Herron July 25 for their monthly mission study of the book, "Give Ye" by Frank K. Means, given by Wilma Angell.

Those present were Mrs. Edgar Plemper. Mrs. Smith Barrett, Mrs. Alvin Heft, Mrs. Grace Angell, Miss Wilma Angell, Mrs. Bill Watkins, Mrs. J. W. Herron, and two guests, Mrs. Jack Straley and Mrs. Willie Dolan.

Refreshments of cookies and punch were served.

Bob Poage Says Our Form Of Government To Be Successful

Some months ago I announced through the columns of this paper that I would be a candidate for re-election. At the time I made this announcement, it was possible for any other citizen of our District to compete for the same office. I am happy that no one did so. The filing date has now closed. The election will take place in the near future.

I feel that it is a great honor to be privileged to go into the general election this Fall as the unopposed nominee of the Democratic Party. I know that I could not do this without the help and support of thousands of friends thoughout the District. To every one of you who has made this possible, I want to extend my personal thanks and appreciation. I have no way of repaying you except to try in the future, as I have in the past, to be a real representative of the people of the 11th Congressional District.

It is, of course, impossible for all of us to participate directly in the lawmaking process. But if our form of government is to succeed, and I think it will succeed, it is important that those who undertake to serve in legislative positions should truly reflect the views of the majority of the people of their Districts. I think it is essential that any Representative should know the problems of his District at first-hand. I maintain my home in the 11th District, and I shall return to my home, to my neighbors, and to my friends as soon as the session of Congress has adjourned.

In the meantime, I can only humbly and sincerely thank you, one and all.

Your Friend,
W. R. Poage, Congressman

Jehovahs Witnesses To Hold Convention In Waco, Aug. 2-5

Fred Starnes, presiding minister of Jehovah's witnesses will head a group of 8 delegates from the Cameron congregation of Jehovah's witnesses to attend a 4-day convention to be held August 2-5, at the Heart O' Texas Coliseum in Waco.

The 4 day Christian convention is sponsored by the Watchtower Bible and Tract Society of Brooklyn, New York. It is one of 34 to be held throughout the United States and Canada this summer. Last year a series of 15 conventions drew a total attendance of over 450,000. It is expected that the attendance will exceed 6,000 for the Waco meeting.

The purpose of the convention is to provide additional Bible instruction for the witnesses. There will be morning, afternoon and evening sessions devoted to Bible talks, demonstrations and discussions for this purpose.

Mr. Starnes said that Jehovah's witnesses are enrolled in at least five classes weekly for Bible study and Christian education. "We maintain," he emphasized, "that a religion worth believing is worth putting into practice".

The convention highlight will be reached at 3:00 P.M. Sunday, August 5, when the public address "Why Permanent Peace Will Come In Our Day" will be delivered by B. Muscariello, Watchtower Society representative and convention chairman.

Early results from beef cattle performance demonstrations are a strong indication that rapid progress in beef cattle improvement can be made in both weaning weight and conformation grade of calves when such a program is put into operation.

Fall seeding is best for establishing alfalfa stands. A soil test will show that fertilizers are will show that fertilizers are needed by this favorite forage crop. The seedbed should be firm, clean and moist and only certified seed should be planted, says E. M. Trew, extension pasture specialist.

for bonus heat* — cook Electrically!

Visit your Appliance Dealer ...and see!

Yes, you get bonus heat on top of the stove as well as in the oven when you cook electrically. * What is "bonus heat?" It's the heat that remains in the electric element after the switch is turned off. It's the free heat that continues to cook until the element cools off.

An electric range oven is insulated on all six sides. As a result you get bonus heat every time you use your electric range because you cook with the electricity off much of the time.

You also get extra dividends when you cook electrically because of the economies in cleaning materials, laundry and decorating expenses.

"Proposed Constitutional Amendments To Be Voted On At An Election To Be Held On November 6, 1956

HOUSE JOINT RESOLUTION NO. 15 proposing an amendment to the Constitution of the State of Texas by amending Article VII, Sections 17 and 18, providing a method of payment for the construction and equipment of buildings and other permanent improvements at State institutions of higher learning and repealing Chapter 330, Acts, Regular Session, Fifty-third Legislature; and proposing an amendment to Article VII of the Constitution of the State of Texas by adding a new section after Section 11 thereof to be designated as Section 11a, providing for the improved support of The University of Texas and the Agricultural and Mechanical College of Texas from a source other than tax revenue by providing for the broader investment of the Permanent University Fund in corporate bonds and stocks under certain conditions and limitations; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Sections 17 and 18 of Article VII of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Section 17. In lieu of the State ad valorem tax on property of Seven Cents (7¢) on the One Hundred Dollar ($100) valuation heretofore permitted to be levied by Section 51 of Article III, as amended, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a State ad valorem tax on property of Two Cents (2¢) on the One Hundred Dollars ($100) valuation for the purpose of creating a special fund for the continuing payment of Confederate pensions as provided under Section 51, Article 3, and for the establishment and continued maintenance of the State Building Fund as provided in Section 51b, Article 3, of the Constitution.

"Also, there is hereby levied, in addition to all other taxes permitted by the Constitution of Texas, a State ad valorem tax on property of Five Cents (5¢) on the One Hundred Dollars ($100) valuation for the purpose of creating a special fund for the purpose of acquiring, constructing and initially equipping buildings, or other permanent improvements at the designated institutions of higher learning; and the governing board of each of such institutions of higher learning is fully authorized to pledge all or any part of said funds allotted to such institution as hereinafter provided, to secure bonds or notes issued for the purpose of acquiring, constructing and initially equipping such buildings or other permanent improvements at said respective institutions. Such bonds or notes shall be issued in such amounts as may be determined by the governing boards of said respective institutions, shall bear interest not to exceed three per cent (3%) per annum and shall mature serially or otherwise not later than September 1, 1968, and September 1, 1978, respectively; provided, the power to issue bonds or notes hereunder is expressly limited to a period of twenty(20) years from the effective date of this amendment; and provided further, that the Five Cent (5¢) tax hereby levied shall expire finally upon payment of all bonds or notes hereby authorized; provided, further, that the State tax on property as heretofore permitted to be levied by Section 9 of Article VIII, as amended, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed Thirty Cents (30¢) on the One Hundred Dollars ($100) valuation. All bonds shall be examined and approved by the Attorney General of the State of Texas, and when so approved shall be incontestible; and all approved bonds shall be registered in the office of the Comptroller of Public Accounts of the State of Texas. Said bonds shall be sold only through competitive bids and shall never be sold for less than their par value and accrued interest.

"Funds raised from said Five Cent (5¢) tax levy for the ten-year period beginning January 1, 1958, shall be allocated by the Comptroller of Public Accounts of the State of Texas on June first of that year, based on the average long session full-time student equivalent enrollment (fifteen (15) semester credit hours shall constitute one full-time student) for the preceding five-year period of time, to the following State institutions of higher learning then in existence, to wit:

Texas State College for Women at Denton; Texas College of Arts and Industries at Kingsville; Texas Technological College at Lubbock; East Texas State Teachers College at Commerce; North Texas State College at Denton; Sam Houston State Teachers College at Huntsville; Southwest Texas State Teachers College at San Marcos; Stephen F. Austin State College at Nacogdoches; Sul Ross State College at Alpine; West Texas State College at Canyon; Texas Southern University at Houston; Lamar State College of Technology at Beaumont.

"Not later than June first of the beginning year of each succeeding ten-year period, the Comptroller of Public Accounts of the State of Texas, based on the average long session full-time student equivalent enrollment (fifteen (15) semester credit hours shall constitute one full-time student) for the preceding five-year period of time, shall re-allocate, to the above-designated institutions of higher learning then in existence, all funds to be derived from said Five Cent (5¢) ad valorem tax for said ten-year period; and all such designated institutions of higher learning which participate in the allocation or re-allocation of such funds shall not thereafter receive any General Revenue funds for the acquiring or constructing of buildings or other permanent improvements for which said Five Cent (5¢) ad valorem tax is herein provided, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of any General Revenue funds. The State Comptroller of Public Accounts shall draw all necessary and proper warrants upon the State Treasury in order to carry out the purpose of this amendment; and the State Treasurer shall pay warrants so issued out of the special fund hereby created for said purpose. This amendment shall be self-enacting; provided, however, it shall not become operative or effective upon its adoption so as to supersede or repeal the former provisions of this Section, but shall become so operative and effective on January 1, 1958; provided, further, that nothing herein shall be construed as impairing the obligation incurred by any outstanding notes or bonds heretofore issued by any State institution of higher learning under this Section prior to the adoption of this amendment, but such notes or bonds shall be paid, both as to principal and interest, from the fund as heretofore allocated to any such institution under this Section, nor shall the provisions of this amendment affect in any way the prior allocation of the revenue for the ten-year period beginning January 1, 1948, as heretofore authorized by the provisions of Section 17 of Article VII of this Constitution as adopted August 23, 1947, Chapter 330, Acts, Regular Session, Fifty-third Legislature is repealed upon the effective date of this Amendment; but the principal and interest due on any obligations incurred by the governing boards of Lamar State College of Technology at Beaumont and of Texas Southern University at Houston under the provisions of said Chapter 330 prior to its repeal shall be paid from the allocations to Lamar State College of Technology and Texas Southern University from the funds raised by the Five Cent (5¢) ad valorem tax levy as provided in this Section, and the annual allocations to these institutions under this Section shall be first devoted to current requirements for meeting such obligations in accordance with their terms.

"Section 18. For the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for the Texas Agricultural and Mechanical College System, including the Agricultural and Mechanical College of Texas at College Station, Arlington State College at Arlington, Prairie View Agricultural and Mechanical College of Texas at Prairie View, Tarleton State College at Stephenville, Texas Agricultural Experiment Station, Texas Agricultural Extension Service, Texas Engineering Experiment Station, at College Station, Texas Engineering Extension Service, at College Station, and the Texas Forest Service, the Board of Directors of the Agricultural and Mechanical College of Texas is hereby authorized to issue negotiable bonds or notes not to exceed a total amount of one-third (⅓) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance thereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any part of The Texas Agricultural and Mechanical College System, except at and for the use of the general academic institutions of said System, namely, the Agricultural and Mechanical College of Texas, Arlington State College, Tarleton State College, and Prairie View A. and M. College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval; and for the purpose of constructing, equipping, or acquiring buildings or other permanent improvements for The University of Texas System, including the Main University of Texas at Austin, The University of Texas Medical Branch at Galveston, The University of Texas Southwestern Medical School at Dallas, The University of Texas Dental Branch at Houston, Texas Western College of The University of Texas at El Paso, The University of Texas M. D. Anderson Hospital and Tumor Institute at Houston, The University of Texas Postgraduate School of Medicine, The University of Texas School of Public Health, McDonald Observatory at Mount Locke, and the Marine Science Institute at Port Aransas, the Board of Regents of The University of Texas is hereby authorized to issue negotiable bonds and notes not to exceed a total amount of two-thirds (⅔) of twenty per cent (20%) of the value of the Permanent University Fund exclusive of real estate at the time of any issuance thereof; provided, however, no building or other permanent improvement shall be acquired or constructed hereunder for use by any institution of The University of Texas System, except at and for the use of the general academic institutions of said System, namely, the Main University and Texas Western College, without the prior approval of the Legislature or of such agency as may be authorized by the Legislature to grant such approval. Any bonds or notes issued hereunder shall be payable solely out of the income from the Permanent University Fund. Bonds or notes so issued shall mature serially or otherwise not more than thirty (30) years from their respective dates.

"The Texas Agricultural and Mechanical College System and all of the institutions constituting such System as hereinabove enumerated, and The University of Texas System, and all of the institutions constituting such System as hereinabove enumerated, shall not, after the effective date of this Amendment, receive any General Revenue funds for the acquiring or constructing of buildings or other permanent improvements, except in case of fire, flood, storm, or earthquake occurring at any such institution, in which case an appropriation in an amount sufficient to replace the uninsured loss so incurred may be made by the Legislature out of General Revenue funds.

"Said Boards are severally authorized to pledge the whole or any part of the respective interests of the Agricultural and Mechanical College of Texas and of The University of Texas in the income from the Permanent University Fund, as such interests are now apportioned by Chapter 42 of the Acts of the Regular Session of the Forty-second Legislature of the State of Texas, for the purpose of securing the payment of the principal and interest of such bonds or notes. The Permanent University Fund may be invested in such bonds or notes.

"All bonds or notes issued pursuant hereto shall be approved by the Attorney General of Texas and when so approved shall be incontestable. This amendment shall be self-enacting and shall become effective January 1, 1958; provided, however, that nothing herein shall be construed as impairing any obligation heretofore created by the issuance of any outstanding notes or bonds under this section by the respective Boards prior to the adoption of this amendment but any such outstanding notes or bonds shall be paid in full both principal and interest, in accordance with the terms of such contracts."

Sec. 2. That Article VII of the Constitution of the State of Texas shall be amended by adding after Section 11 thereof a new Section to be designated Section 11a, which shall read as follows:

"Section 11a. In addition to the bonds now enumerated in Section 11 of Article VII of the Constitution of the State of Texas, the Permanent University Fund may be invested in first lien real estate mortgage securities guaranteed in any manner in whole by the United States Government or any agency thereof and in such corporation bonds, preferred stocks and common stocks as the Board of Regents of The University of Texas may deem to be proper investments for said fund; and the interest and dividends accruing from the securities listed in Section 11 and Section 11a, except the portion thereof which is appropriated by the operation of Section 18 of Article VII for the payment of principal and interest on bonds or notes issued thereunder, shall be subject to appropriation by the Legislature to accomplish the purposes declared in Section 10 of Article VII of this Constitution. In making each and all of such investments said Board of Regents shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital; provided, however, that not more than fifty per cent (50%) of said fund shall be invested at any given time in corporate stocks and bonds, nor shall more than one per cent (1%) of said fund be invested in securities issued by any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided, further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors. This amendment shall be self-enacting, and shall become effective upon its adoption, provided, however, that the Legislature shall provide by law for full disclosure of all details concerning the investments in corporate stocks and bonds and other investments authorized herein."

Sec. 3. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the General Election to be held on the first Tuesday after the first **Monday in November, A.D. 1956,** at which election all ballots shall have printed thereon:

"**FOR the Amendment** to Article VII of the Constitution of the State of Texas by amending Sections 17 and 18 thereof, providing a method of payment for the construction and equipment of buildings and other permanent improvements at State institutions of higher learning; and by adding a new section thereto to be designated as Section 11a, providing for the improved support of The University of Texas System and the Texas Agricultural and Mechanical College System by authorizing the investment of the Permanent University Fund in corporate bonds and stocks under certain conditions and limitations."

LITTLE RIVER PHILOSOPHER BAFFLED BY RISE IN COST OF LIVING AND FALL IN PRICE OF FARM PRODUCTS

Editor's note: The Little River Philosopher on his Johnson grass farm on Little River seems to be puzzled this week, which really is his customary turn of mind, only he doesn't always recognize it.

Dear editar:

I don't get to read a newspaper every day and I've been wondering—during a few skips in my reading has Congress repealed the law of supply and demand? The reason I ask this is that yesterday I picked up a paper from the road out here near my farm where somebody had spread it on the ground to get under his car to put the jack to fix a flat and I took it home and read where living costs have hit an all-time high.

Now that in itself wasn't news to me, as best I can tell, living costs have been going up ever since I can remember, every year it takes a little more than it did the year before to get by, if you don't believe this, ask anybody you know, but what did floor me was the statement that the reason living costs have gone so high is because food prices have jumped.

But the people I sell what I produce out here on this farm have been telling me the reason the price I get is so low is because of the huge surplus.

What this looks to me like is that the more the farmers produced, the higher the price of food goes, on the way back, that is, not as it leaves the farm.

Everybody blames this on the middle man, and what I've been wondering is why ain't the middle man subject to the law of supply and demand the same as us farmers?

As I say, I may have missed reading the papers on the days Congress repealed this law, or the Supreme Court ruled it unconstitutional, and if so I would appreciate you getting hold of our Congressman and straightening me out on this.

Understand, I'm not opposed to this new working of the law of supply and demand, I have been contending for years that what the farmer needed was high prices when he raises a lot, not when he raises a little, can't anybody get ahead on that plan, and it looks like the middle man has figured out the secret, which is worth a lot more than the secret of the atom bomb, and apparently is a lot more closely guarded. At least none of us farmers have been able to figure it out, just as very few Congressmen are equipped to make an atom bomb.

Yours faithfully,
J. A.

A drop of eight percent in the nation's spring pig crop and an indicated reduction of seven percent in the number of sows to farrow this fall promise some relief for swine prices, says John G. McHaney, extension economist.

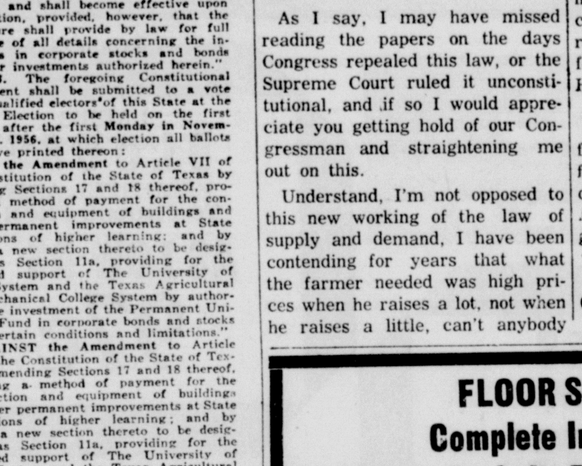

The August list of plentiful foods is topped by broilers and fryers. Turkey supplies make this old favorite another good buy for August. Large quantities of all grades of beef are also available.

GO TO CHURCH ON SUNDAY

"It really opened my eyes on ways to lower my food bill"

"It all started a couple of months ago when I wanted that new hat so badly. Couldn't figure any way to get it out of my budget.

"Then I began to wonder if I was paying more for food than I needed to. Decided to check. And I *really* checked! Went about it very scientifically, I'll have you know.

"I listed all the foods I bought in a week's time. Then I put five columns to the right of the list so I could jot down the price of each item at each of the five stores that are fairly convenient for me to shop in.

"Believe me, I went to each one of those stores. I put down every price and totaled all prices for each store. It took me almost half a day to do it, but it was worth it."

Know what I found? And this will amaze you, as it did me! My total at **Safeway** was much less than at any of the other stores. Enough savings in a year, I figured, to pay for a new coat!

The secret lies in just a few pennies difference here and there, usually on items you don't see advertised. But those pennies really add up. And you should hear Steve rave about the meats I've been getting from **Safeway.** And was he ever impressed with my businesslike approach to my shopping.

Tell you what. I'm going down to **Safeway** now. Get your coat and come along. I'll show you how to save enough, in no time at all, for that blouse you've had your heart set on.

Reports Show Great Demand For Texas School Teachers

With opening of public schools a month and a half away, critical shortages of teachers exist, particularly in high schools, the Texas State Teachers Association reported.

Based on reports through July 20 from school districts employing 20 per cent of Texas school personnel, the TSTA estimated that 7,615 teaching positions still are vacant in Texas, with only 1,310 teachers available to fill them. This means almost six openings for every teacher wanting a job.

Charles H. Tennyson, TSTA executive secretary, explained that 971 school districts—representing 20 per cent of school personnel—still have 1,522 teaching jobs listed with TSTA's registration service. Only 262 teachers have offered themselves to fill the jobs. TSTA does not operate an employment agency. Administrators and teachers must contact each other from lists furnished by the association.

Supporting this general condition, Tennyson reported specific instances such as Brownsville, with 46 of its jobs vacant and Mineral Wells, where one third of the teaching jobs still are without any takers at this crucial stage. Midland, which has already employed over 100 teachers as replacements this summer, still has 16 vacancies. Teaching contracts normally are about completed by this time, he noted.

More than half the teacher vacancies exist in high and junior high schools, TSTA records show. Most of the others are in primary and intermediate grades, with the remainder in administrative and special service positions.

Demand is greatest for teachers of science, mathematics, English, music, home economics, physical education, and commercial subjects. On the other hand, supply exceeded demand for such subjects as history, social studies, Spanish, Latin and industrial arts.

A recent survey by TSTA's research division adds weight to these alarming figures. Eighty-six per cent of Texas school districts, representing 98 per cent of the professional personnel reported.

The 98 per cent figures show 12,848 school employes "new to the district," or in jobs with that school district for the first time, last year. Of that number, 5,519 transferred from one school district to another, 1,223 came from teaching experience in other states, 4,097 were beginning teachers, and 2,016 returned to the classroom after an absence.

At the same time, almost 4,900 teachers were completely lost from the profession last year, Tennyson explained.

Professional school personnel employed last year (98 per cent) totaled 70,970, an increase of 3,487 over the previous year. At the same time, the scholastic population increase was 80,484, or about 25 for each additional person employed.

Pirates Out Front In National League

The four teams in the National League were just as hot as the weather, as they continued to battle for positions in the League Standings last Monday night July 16.

In the first game the Dodgers upset the cardinals by a score of 14-12. The Dodgers took an early run lead in the very first inning added one in the second, none in the third, four in the fourth and three in the fifth to go out ahead and stay as the Cardinals played catch-up all night. The Cardinals gained their first runs in the third inning as they scored four times, added six big ones in the fourth, and their rally was cut short in the fifth when they scored 2 times.

In the second game of the night the Phillies held the league leading pirates to a 11-11 in the regulation game but in the extra inning the Pirates showed across three big runs to win the game by a score of 14-11. The Pirates scored their runs, four in the first, one in the second and then nine big ones in the last three innings.

The Dodgers gained their runs by scoring three times in the first inning, and only nine in the next five innings, as rally after rally was cut short.

The Seasons standings are: PIRATES, played 5, won 5; lost 0; CARDINALS, played 5, won 3, lost 2; DODGERS played 5, won 2, lost 3; PHILLIES played 5, won 1, lost 4.
